# HJ-150

## ***/ Compact Design***

Easy to carry in your pocket, bag or briefcase and measurement can be done even in extremely cramped conditions (66 x 98mm)

## ***/ Light Weight***

Only 100g in weight (including batteries)

## ***/ Selectable Weighing Unit***

Meet any weighing application by choice of weighing unit of grams or ounces; simply change unit by pressing a button on the under-side of the scale

## ***/ High Weighing Resolution***

Precision weighing of 150 x 0.1g or 5.29 x 0.01 oz

## ***/ Tare Function***

One touch tare function enables the user to use a container for net weighing

## ***/ Battery Operation***

Uses 2 AAA alkaline batteries for easy transportation

## ***/ Auto Power Off Function***

To save battery consumption for a long battery life, it automatically turns itself off after 30 seconds of the display showing "0.0g", and after 2 minutes when the weighing is stable

## ***/ Large LCD Display***

Easy to read the 8mm high 7-segment LCD to prevent reading errors

## ***/ Backlight Function***

Beautiful blue backlight makes reading the display easy even in dark weighing conditions

## ***/ Standard Calibration Mass***

Standard calibration mass of 100g comes provided with the HJ-150 in its carton box to save you from purchasing calibration mass separately

## ***/ Calibration Function***

One-touch calibration with the standard calibration mass provided makes scale calibration extremely easy for accurate weighing

## ***/ Protective Cover***

Protects the weighing pan from overload and shock-load when it covers the scale; the protective cover can also double as a weighing container to be used to measure small objects

### *HJ-150 Specifications*

	HJ-150
