

type W15.51

4

supplied to **RS** by Kübler

- 5 digit miniature adding counter with manual reset
- power consumption min. 130 mW
- suitable for battery operation and electronic circuits
- long service life
- flush mount counter with spring clip
- cut out 48x24 mm

applications:

- battery operations
- vending machines
- automatic message accounting systems
- general counting systems

technical data

VDC:	max. pulse speed 10 pulse on time 50 ms pulse interval min. 50 ms power cons. approx. 130 mW at 12 VDC and 230 mW at 24 VDC residual ripple voltage max. 48%
VAC:	max. pulse speed 10 pulse on time 50ms pulse interval min. 50ms power cons. approx. 0.75 VA at 115V), and 1.5 VA at 230V

electrical connection:	flying leads approx. 50mm
size of figures:	1.7x4mm
mounting position:	any
service life:	>50.10 ⁶ impulses
weight:	48g
ambient temperature:	-10...+50°C
packing:	1 unit
