

TLS2200® Thermal Labelling System

TLS2200®
THERMAL LABELLING SYSTEM

The TLS Thermal Labelling Systems both deliver permanent, quick and clear printing, label after label. With thermal transfer printing there is no need to handle your materials delicately, there's no smearing!

The systems automatically recognise label sizes and printer settings and have a built-in cutter, eliminating wasted time and materials. Both printers can be used with a wide range of materials, available in over 350 label sizes, including die cut labels, self-laminating markers, sleeves and continuous tape.

Connect a TLS system to your PC and use the Labelmark™ software to import graphics, create templates, print bar code symbologies and import label lists using ASCII and ODBC data import capabilities.

- 100% increased processing speed
- Graphical display - increases the contrast and resolution of the display so text is easier to read.
- Sleep Mode has been added to save battery consumption
- Prints bar codes (Code 39, Code 128, IFT 25 and Codabar)
- Prints 203 dpi (8 dots/mm)
- Custom TrueType font
- Print length up to 1370.60 mm
- Two line liquid crystal display (LCD), 16 characters wide
- UL and CUL listed battery charger
- Adjustable for 6 different widths of labels
- Built-in industrial label cutter
- Patent numbers D409, 230; 5,918,989; 5,951,177; 6,113,293 and 6,142,686
- Most versatile & powerful portable labelling system available
- Lightweight (1.25 kg)
- Internal memory to create and save legends in lists
- PC connectivity using the optional LabelMark™ software
- Banner printing (up to 1.30 m)
- Labels up to 50.80 mm width and maximum
- Print width of 46.00 mm
- Fixed length & step printing
- Electrical and datacom symbols

TLS2200 Thermal Labelling System

Order Reference	Description
TLS2200-EUR	Printer system includes hard case, R-6210 ribbon, battery pack, battery charger, manual, communications cable, test labels (PTL-19-423), one cleaning card, quick start guide
TLS2200-UK	As above but with UK adapter instead of European
TLS2200-AC EUR	AC adapter - Europe
TLS2200-AC UK	AC adapter - UK
TLS2200-BC EUR	Battery charger - Europe
TLS2200-BC UK	Battery charger - UK
TLS2200-BP	Battery pack
TLS2200-HC	Hard side carrying case
TLS2200-SC	Soft side users case
TLSHM-QUICKCH	Quick charger for TLS - 120V only

Application Kits - see page 18

Specifications

Print method	Thermal transfer (non smearing)
Weight	1.25 kg
Dimensions (L x W x H)	292.10 mm x 107.95 mm x 101.60 mm
Power source	Rechargeable battery prints over 500 labels
Operating temperature	4° - 49° C
Agency approvals	FCC Class A approved

TLS2200-SC

TLS2200-AC

TLSHM-QUICKCH - 120V only

TLS2200® Thermal Labelling System

Application Kits

Use these application kits to immediately start identifying your cables, panels, workstations and terminal blocks.

Order Reference	Description
EU TLS2200 Electrical & Panel ID Kit	Kit containing TLS2200 printer & Consumables
EU TLS2200 Network Identification Kit	Kit containing TLS2200 printer & Consumables
UK TLS2200 Electrical & Panel ID Kit	Kit containing TLS2200 printer & Consumables
UK TLS2200 Network Identification Kit	Kit containing TLS2200 printer & Consumables

Electrical & Panel ID Kit

Contents

- TLS2200® Printer with Hard Case
- Battery Pack
- Battery Charger
- Communications Cable
- Cleaning Kit
- LabelMark™
- R-4310 ribbon
- R-6010 ribbon

Self Laminating Labels & Sleeves - PTL-31-427, PSPT-187-175-WT, PSPT-250-175-YL
 Continuous Strips for Electrical Panels & Terminal Blocks - PTL-46-422, PTLTB-8-422
 EPREP and Nylon cloth labels for Panel Identification - PTLEP-02-7593, PTL-98-499

Network Identification Kit

Contents

- TLS2200® Printer with Hard Case
- Battery Pack
- Battery Charger
- Communications Cable
- Cleaning Kit
- LabelMark™
- R-4310 ribbon
- R-6010 Ribbon

Self Laminating Labels for Cat. 5 Cables, Patch Panel and Workstation Identification - PTL-31-427, PTL-7-422, PTL-29-422
 Flags for Fibre Optic Cables - PTLFT-01-425
 EPREP for Panel Identification - PTLEP-02-7593

TLS2200® / TLS PC Link™ Thermal Labelling Systems

With the TLS PC Link, Brady offers you the most compact professional desktop labelling system available. The TLS PC Link is the ideal economical choice if you have no need for a portable solution and you prepare your labelling projects at your desk.

- Includes LabelMark™ software
- Can be used with any Windows™ based software
- Own programming language can be integrated with non-windows based equipment
- AC power supply automatically charges battery
- Print length up to 152.40 mm
- Custom TrueType font
- Labels up to 50.80 mm wide
- Print width 45.97 mm
- UL and CUL listed AC adapter/battery charger - 120V/60hz input 12VDC 3000mA output
- Adjustable for 6 different widths of labels
- Built-in industrial label cutter

TLS PC Link™ Thermal Labelling System

Order Reference	Description
TLSPC-EUR/UK	Printer system includes LABELMARK™ labelling software, Battery pack, AC adapter/battery charger, R-6210 ribbon, sample labels (PTL-19-423), manual, Quick Start Guide, communications cable and Windows drivers
TLSPC-EUR/UK Lite	Printer System as above but supplied without LabelMark™ software
TLSPC-US	Printer system as TLSPC-EUR/UK but with US AC adapter/battery charger
TLSPC-ACINTL	AC adapter/Battery charger
TLSPC-BP	Battery pack
TLSPC-CABLEINTL	Communications cable
TLSHM -QUICKCH	Quick Charger for TLS - 120V only

Specifications

Print method	Thermal transfer (non smearing)
Weight	1.14 kg
Dimensions (L x W x H)	234.95 mm x 101.60 mm x 107.95 mm
Power source	Rechargeable battery prints over 500 labels
Operating temperature	4° - 49° C
Agency approvals	FCC Class A approved

TLS2200® / TLS PC Link™ Thermal Labelling Systems

Ribbons

TLS2200® / TLS PC Link™ Thermal Labelling Systems Ribbons

Order Reference	Description	Length (m)
R-4310	R-4310 Black Ribbon	22.90
R-6010	R-6010 Black Ribbon	22.90
R-6210	R-6210 Black Ribbon	22.90
R-4410-BL	R-4410 Blue Ribbon	22.90
R-4410-RD	R-4410 Red Ribbon	22.90
R-4410-WT	R-4410 White Ribbon	22.90

FYI

Ever wonder how many labels you can get from our TLS2200 ribbons? Try this formula:

Our TLS2200 ribbons are 22.90 m long (=22900 mm).

To estimate how many labels you will get out of one ribbon, use the following formula:

22.90 divided by label height (B dimension) + 3.175 mm (step)

Example: PTL-19-422 is 25.40 mm tall.

25.40 mm + 3.175 mm = 28.575 mm

22900 mm divided by 28.575 mm = 801 labels

Bulk Labels

Bulk labels are designed for the TLS2200® and TLS PC Link™ thermal labelling systems to save customers money, and provide the perfect low volume* labelling solution. A reusable dispenser box protects labels from dust and debris and allows easy storage until the next identification job. Bulk labels utilise Smart-Cell Technology and allow the TLS2200® and TLS PC Link™ printers to recognise label sizes and printer settings automatically, eliminating wasted time and materials.

* TLS2200® and TLS PC Link™ printers are recommended for printing 500 or less labels per print run. You may experience a printer slowdown if printing large quantities of labels at one time depending on the material, label size and amount of print coverage.

●	Recommended ribbon for use with respective material.
△	Acceptable ribbon for use with respective material.
UL	These materials are UL recognized with its respective ribbon.
CSA	These materials are CSA approved with its respective ribbon.
UL/CSA	These materials are UL & CSA approved with its respective ribbon.
^	R-6210 ribbon included with printers.

Part number explanation

Most BRADY references for printable labels follow the same three-part format: The first code indicates the technology, the second part is a number indicating the label size (where applicable) and the third part indicates the BRADY material (where applicable).

Variable Font Sizes

Variable font sizes range from 1 (4 point) to 19 (72 point). The maximum font size available depends on factors such as label size, number of characters, number of lines, as well as font sizes in other lines.

Autotext Sizing

The TLS 2200® Thermal Labelling System uses an automatic font sizing feature called autotext sizing. As you enter characters on the LCD, it instantly reads your label style, selects the most suitable type size, and registers it for printing.

Overriding Autotext

If you wish to select a specific font size for your label, the autotext feature can easily be overridden on a line-by-line basis.

Symbols

Standard electrical and telecommunications symbols are included. Banner Printing Continuous tape available in many different sizes, colors, and materials.

TLS2200® / TLS PC Link™ Materials Chart

Material Number	Max. Service Temp. °C		Colour	Finish	Use	Special Properties	
Nylon Cloth							
B-499	90	30 days	White	Matt	Low profile through-conduit wire marking, component and general labelling	High adhesion makes all-purpose wire marker ideal for environments where heat, oil and dirt are present	UL SF HF
Paper							
B-424	50	30 days	White	Matt	Bar code and general labelling	Good contrast and smear resistance	
Polyester							
B-422	100	30 days	White	Gloss	Electronic PCB ID and component, bar code label and rating plate, outlet and patch panel identification	2 mil adhesive recommended for application on textured surfaces	UL SF
B-423	120	30 days	White	Gloss	Electronic PCB ID and component, bar code label, rating plates and outlets		UL SF HF
B-428	120	30 days	Silver	Matt	Rating plates; electronic component marking		UL SF HF
B-430	100	30 days	Clear	Gloss	General labelling rating/name plates, outlet and general communications	High adhesion make it ideal for highly textured and other surfaces that are difficult to adhere to; Translucent	UL SF
B-432	100	30 days	Clear	Gloss	General labelling rating/name plates, outlet and general communications	Clear glossy polyester for highly textured and hard to adhere to surfaces.	UL SF
B-433	100	30 days	White	Gloss	Electronic component marking, bar code and general purpose labelling	Good solvent and heat resistance; label can be easily removed	UL
B-435	90	30 days	Silver	Gloss	Rating plates and general labelling	Metallised polyester designed to withstand solvents while maintaining excellent image quality	UL SF
B-459	110	30 days	White	Matt	Electronic PCB ID and component; bar code labelling and rating plates		UL SF
B-461	110	30 days	White	Matt	Self-laminating marker	Excellent abrasion and smudge resistance	
B-473	120	30 days	White	Gloss	Electronic PCB ID and component; bar code labelling and rating plates	Static dissipative adhesive and liner	UL SF
B-483	120	30 days	White	Gloss	General labelling; bar code label and rating plates	Ultra-aggressive adhesive for thermal transfer printing, designed for powder coated surfaces	UL SF
B-486	120	30 days	Silver	Matt	General labelling; bar code labelling and rating plates	Metallised polyester with ultra-aggressive adhesive for oily, greasy, and powdercoated surfaces	UL SF
B-488	160	30 days	White	Matt	Electronic PCB and component; bar code label and rating plates	High performance matt white	UL SF
B-489	120	30 days	White	Matt	General labelling; bar code labelling and rating plates	Ultra-aggressive adhesive for oily, greasy, and powder coated surfaces; UL/CSA approval pending	UL SF
B-7546	80	30 days	White	Gloss	Tamper-evident labels	Leaves "void" footprint when removed	UL
B-7551	70	24 hours	Clear	Matt	Rating and serial plates, protective overlamination		
B-7566	80	30 days	Clear	Gloss	Tamper-evident labels	Metallised polyester. Leaves "void" footprint when removed	UL
B-7576	100	30 days	Silver	Matt	Tamper-evident labels	Leaves "void" footprint when removed	UL
B-7593	100	30 days	White/Yellow /Red/Green /Silver/Black	Gloss	Electrical components, switches, push buttons, rack and patch panels 650um thick material with foam tape to replace engraved name plates	Colour match available on demand	
Polyethylene							
B-109	100	30 days	White	Matt	Multi-purpose identification tag, where durability is required	Cross-laminated polyethylene provides extreme tear resistance and excellent cold-weather performance	HF
B-145	100	30 days	Grey	Matt	Power and ground labels	Tear-resistant 2-sided printable tag	
B-7597	50	30 days	White	Matt	Multi-purpose identification tag 200um polyethylene tag		HF
B-7599	50	30 days	White	Matt	Multi-purpose identification tag 250um polyethylene tag		HF
Polymide							
B-426	330	80 sec.	Amber	Matt	Underside PCB ID and other high temperature, high performance applications	Withstands extremely high temperatures	
B-449	90	30 days	White	Matt	Temporary labelling applications.	Removable: good solvent resistance and print performance	
B-457	300	80 sec.	White	Gloss	Top- or bottom-side board application for SMT or Through hole	Good contrast and smear resistance	UL
B-477	300	80 sec.	White	Gloss	Top- or bottom-side board application for SMT or Through hole	Static dissipative adhesive and liner	UL
B-478	300	80 sec.	White	Gloss	1 mil low profile top- or bottom-side board application for SMT or Through hole	Static dissipative adhesive and liner	UL
B-479	350	80 sec.	White	Matt	1 mil low profile top- or bottom-side board application for SMT or Through hole	Static dissipative adhesive and liner	UL
Polyolefin							
B-321	120	1 000 hours	White	Matt	Wire marking	Heat-shrinkable	
B-342	130	1 000 hours	White/ Yellow	Matt	Wire marking	3-to-1 shrink ratio; self-extinguishing, meets the material and physical property of AMS-DTL-23053/5 Class 1, SAE AS-81531, MIL-STD-202; Method 215 and UL 224

*** Also available in BL-blue, BR-brown, GN-Green, GY-grey, OR-Orange, PL-purple, RD-red**
To order a colour, add a dash "-" after the material number, then add the colour suffix.

The min. and max. wire diameter is calculated so that the label will wrap round the wire without any overlap of the write-on area.

* Based on National Electric Code insulation measurement of THHN Wire.

Note: Sleeves are sorted in order by width, height, 3 digit material number (within part number).

DuraSleeve® Wire Marker Sleeves

The DURASLEEVE™ markers solution consist of two components: a transparent tube (carrier) with a label pocket and an insert to slide into this pocket. Your legend is at all times protected by the tube and can easily be replaced. Print the inserts on a Brady system to ensure clean crisp readable legends every time.

Rigid Durasleeve Inserts

* Based on National Electric Code insulation measurement of THHN Wire.

Note: Labels are sorted in order by width, height, 3 digit material number.

Rapido™

B-7599 Yellow Coated Polyethylene Tag

Wiremarking has never been so easy with the Brady Rapido™ Wiremarking Sleeves. Simply print, apply to the wire and peel the marker of the roll. It's physical properties make this marker suitable for any durable pre-terminated wire applications for electrical devices and fibre installations.

Heatex™ Cable Markers

B-7643 Thermoplastic Polyether-Polyurethane (PUR)

The Heatex cable markers are made of a Thermoplastic Polyether-Polyurethane (PUR), zero halogen material, suitable for both thermal and dot matrix printing. The markers are supplied on a thermal transfer printer liner which allows you to print mounting instructions on the liner! The markers can be removed one by one off the liner, allowing you to print large batches and use each marker at the time when you need it.

TLS2200® / TLS PC Link™ Wire and Cable Marking

Cable Markers

When you are looking for cable markers with extreme durability, the Laminat range of carriers and tags is the solution. The Laminat consist of two parts: Laminat™ Carriers (B-7644), Laminat™ Tags (B-7645)

B-7644 Laminat™ Carriers

Laminat™ carriers come with a strip to laminate text labels. The carrier is to be fixed with two cable ties directly on the cables and wires. This dependable marking system enables you to permanently mark cables and wires.

The Laminat™ Carriers can be used for any type of cable identification where permanency of the legend is crucial. Follow these steps to mount the label onto the Laminat™ carrier:

1) Pull the protective foil backwards

2) Place the label in the middle leaving space for sealing on all four sides of the label.

3) Seal the carrier by placing a finger on the foil and pushing forward, thus rolling over the foil and rolling off the silicon liner.

4) Always feed the cable ties from the top, thus bending down the Laminat™ carrier along the cable.

Order Reference	Markers Per Box	Material	Colour	Dimensions Width A (mm)	Height B (mm)	Seal-Up Area C (mm)	D (mm)	Labels /Tapes Recommended

Cable Ties are not included (see page 31)

B-7645 Laminat™ Tags

The Laminat™ Tags (Manilla tags) are ideal for identification of material in tough environments including valves, instruments, motors and other industrial components. The tags are available in two versions: with and without stainless steel reinforcement rings.

Tedlar® is a registered trademark of DuPont.

* Also available in: BL=blue, GN=green, OR=orange, PL=purple, RD=red, GY=grey, BR=brown, YL=yellow.
To order a colour, add a dash "-" after the material number, then add the colour suffix.

BL = Blue (for horizontal cable terminations)
BR = Brown (for campus backbone cable terminations)
GR = Green (for network connections)
GY = Grey (for backbone cable between intermediate cross-section and telecom)

OR = Orange (for central office termination)
PL = Purple (for major switching and data equipment terminations)
RD = Red (for all key telephone equipment terminations)
YL = Yellow (for auxiliary, maintenance alarms, security etc.)

TubeSleeve Carriers

Brady TubeSleeve Carriers are the ideal complement to self-laminating labels, where the cables are thin and available space for text is small. Apply the tubesleeve to the cable and then apply the self-lam. The limited available space is increased significantly, giving you the possibility of printing more text.
