WARNING! Insulated Tools are intended to provide protection
against accidental contact with charged energizing circuits.
For safety purposes we recommend de-energizing all circuits
before starting working on any electrical apparatus or conductors.
Check Insulation on all Tools before starting work, do not
use tools if insulation has been cut or shows signs of wear or damage
to insulation area of the Tool. Always wear eye protection when using
hand tools. Use NFPA70E certified protective outer wear when appropriate
