1515L Multifunction 15-inch Desktop Touchmonitor

selected part numbers discontinued October 2012; suggested [replacement](#) has two small holes on the rear of the unit for future use

The 1515L touchmonitors are designed, developed and built to provide the most cost-effective touch solutions for system integrators and VARs. Aimed at the fast-changing retail POS and hospitality markets, they provide reliable, durable operation and come from the worldwide leader in touchmonitors, Elo Touch Solutions. The optional 3-track magnetic stripe reader (MSR), programmable to either HID or Keyboard Emulation (USB only), is easily installed by the user, providing an elegant, integrated solution and eliminating the need for external brackets or attachments. The 1515L features a choice of touchscreen technologies: AccuTouch five-wire resistive technology, the most widely used for retail applications and proven to survive splashing liquids, food and grease; IntelliTouch pure glass surface wave technology, for the ultimate in optical quality for dry retail and hospitality applications; Acoustic Pulse Recognition for a pure-glass surface that recognizes sound from both hard and soft stylus touches; projected capacitive for a durable, zero-bezel, glass-to-edge surface with multi-touch*.
