

# COMBO-WORLD TO INDIA

India.... I am coming!

## Don't leave without it!

The booming economic destination is becoming attractive to more and more business travellers, and especially the IT sector is appreciated the world over. Of course you've got a busy appointment schedule for your business trip. After a whole day at lots of different meetings, your laptop battery has just about had it, but you still really need to do that brief video conference with your headquarters. So, out with the charging cable quickly and then - nothing happens, the plug doesn't fit....

## Always ready for action

Using this travel adapter this will never happen again and you can connect all your **2- and 3-pole devices** with mains sockets from more than 150 countries when you are there. It doesn't just mean that your laptop is always ready for action, you will be able to plug in your iron, electric toothbrush and camera as well.

## Travel to India and Europe

With the Combo-World to India travel adapter, which combines the mains plugs used in Europe and India. It's ideal if you travel predominantly to India or Nepal, but are also regularly travelling through Europe (Schuko).

Cant' live without USB? Check out the **Euro USB Charger**, which is compatible with all the SKROSS Country Adapters.

## Swiss quality

Just as all products from SKROSS, the country travel adapters are also made in familiar high Swiss quality and comply with all the relevant international **safety standards** and, of course, are certified and patented.
