Q Type 'Safeloc' Claw Couplings

Zinc-plated Malleable Iron

Q Type 'Safeloc' Claw Couplings are suitable for medium to high pressure compressed air applications, incorporate a safety 'pin lock' feature that prevents accidental disconnection, and are fully interchangeable with standard European claw couplings. The couplings are manufactured from malleable iron, with a Zinc-plated finish.

Technical Features

- Safety pin locking feature
- Security collar on hose stem for use with HP clamps to prevent hose 'blow off'
- Suitable for working pressures (with air) up to 10 bar

Male NPT Q Type Claw Coupling
(e.g. 768-2230)

Female NPT Q Type Claw Coupling
(e.g. 768-2246)

Q Type Claw Hose Tail Coupling
(e.g. 768-2268)

Q Type Claw Universal Hose Coupling
(e.g. 768-2252)

Female Q Type Claw Coupling
(e.g. 768-2283)

Male Q Type Claw Coupling
(e.g. 768-2292)
