

SERIES 7

SPECIAL FEATURES

Colour Screen

Large backlit colour VGA screen for crystal clear display of information. The screen is also touch sensitive, enabling users to select items and navigate around the screen quickly and effortlessly.

Battery life

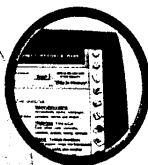

While most notebook computers will give only 3 or 4 hours of battery life, the Series 7 will keep going for around 8.5 hours without needing a recharge.

Design

The Series 7 features an attractive blue leather attache style case, and at only 1150 grams, it is compact and light enough to be carried around all day.

Instant-on

Like all Psion computers, the Series 7 will not waste time when switched on. There is no boot-up time so users can open it and start working rightaway.

ADDITIONAL FEATURES

- ☐ Series 7 rechargeable battery
- ☐ Lithium Backup battery
- ☐ Power supply, PC serial cable

OVERVIEW

of core built-in applications

The Psion range of products have been designed specifically with the mobile user in mind. The extensive range of applications and features on the Revo Plus, Revo, Series 5mx and Series 7 permits the mobile professional to use their time away from the office or travelling more efficiently.

Outlined below are the core applications you will find on all the products in the Psion range.

Email

- Familiar PC-like user interface
 - Inbox, Outbox, Draft and Sent views.
- Supports folders, multiple accounts and a universal inbox/outbox for email, fax* and SMS messages.
- Synchronizes email with desktop PC email using cable and software in the box
 - supports Microsoft Outlook and Lotus cc:Mail**. Other synchronizers are available separately, eg. Lotus Notes Mail.
- Attachment viewer for Microsoft Word 95/97.
- Internet compatible for remote dial-in access/synchronization (SMTP/POP3 over TCP/IP)
- Call back security for corporate users.

Word Processor

- Standard formatting options, including fonts, bold, italics, underline, bullets, borders, shading, tabs, headers, footers, etc.
- Style gallery.
- Templates.
- Embedding of spreadsheets and graphs.
- Printing to a wide range of printers via infrared link or a PC.
- Compatible with Microsoft, Lotus and Corel/WordPerfect applications.

Spreadsheet

- Desktop-style spreadsheet application.
- Standard formatting options: font, sizes, borders, shading, etc.
- Full range of 2D and 3D charts: pie, bar, column, line and scatter diagrams.
- Includes sorting, 100 statistical, financial and other functions.
- Compatible with Microsoft, Lotus and Corel/WordPerfect applications.

Connect

Link directly to your PC with PsiWin2

- It offers automatic conversions for Microsoft Office (Word and Excel), Lotus SmartSuite, Corel Office/WordPerfect and other popular applications.
- There's automatic time management and contacts sync with Microsoft Outlook/Schedule+ and Lotus Organizer.
- There's automatic email sync with Microsoft Outlook and Lotus cc:Mail.
- Backup and synchronization keeps your data secure and up-to-date.
- Print using cable, infrared or via PC.

Agenda

- A powerful, flexible time manager application.
- Stores rich text, pictures* and voice notes*.
- Attach Word and Sheet documents to track agendas or minutes.
- Alarm reminders for appointments.
- Seamless synchronization to Lotus Organizer and Microsoft Outlook/Schedule+.

Contacts Manager

- A flexible database for personal and business information.
- Seamless synchronization to Lotus Organizer and Microsoft Outlook/Schedule+.
- Sorts on a range of fields.
- Incremental matching function displays all matching records.
- Shared with email application for easy address management.
- Additional software may be purchased to synchronise with Lotus Notes (InSync Pro e) and Novel Groupwise (Link Wise).

Internet Browser

- PC-like user interface with familiar buttons for quick navigation.
- View sites either full graphics or just text.
- Internet standard support for HTML 3.2 & TCP/IP.
- Supports JPEGs, GIFs/animated GIFs*, Frames, Cookies, Java applets*.
- Call-back for user authentication.

The Series 5mx and Series 7 support Java 1.1.4 (Sun Enterprise Java 1.1.4) so you can view Java applets when using the web browser. The JVM is included on the PsiWin CD.

Web browser supplied on CD Rom with Series 5mx and Revo. WAP and Opera® secure Internet browser supplied on CD with Revo Plus.

Also included

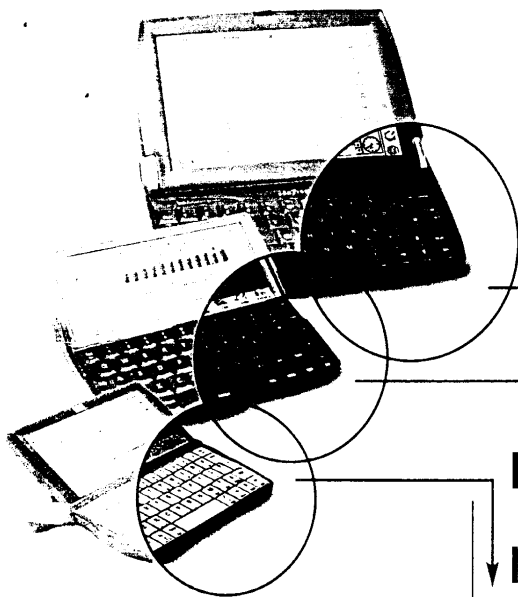

- Drawing and Painting*
- Alarm clock and World information
- Standard and scientific calculator
- Jotter for quick notes
- Spell Checker and Thesaurus†
- Freeform database for recipes, CD collections, etc.

MOBILE INTERNET

Psion.net

Psion.net is the Psion service that makes the Internet mobile. Powered by our Internet partner LineOne, Psion.net provides 2 million pages of high quality news and information optimised for viewing on a Psion Series 7, Revo and Series 5mx. Whether it's finding out a train time, a local hotel or checking road conditions, Psion.net is the mobile users passport to finding the information they need, when they need it.

Add to this the latest news from Psion, UK national news, entertainment, sports and business information, and the mobile user will never feel out of touch again.

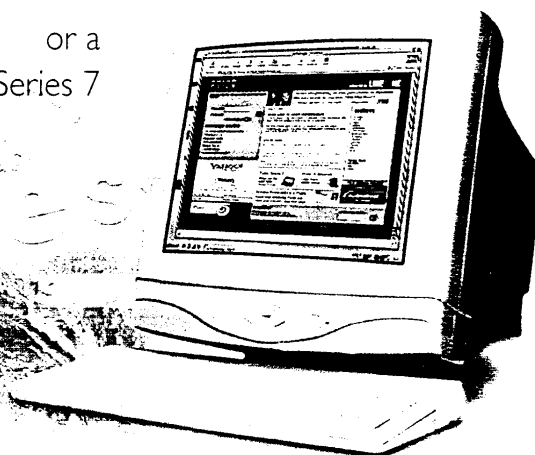

We also provide 5 email addresses and web space to host their own site.

Visit www.psim.net for more information.

CONNECTIVITY

PC SYNCHRONIZATION

The **PsiWin** software, which is supplied with the Psion Series 5mx, Series 7 and Revo, allows users to backup and transfer office files to and from all leading word processor, spreadsheet and database applications, and synchronize with schedule software on desktop PCs, including Microsoft, Lotus, Corel, WordPerfect and other applications.

Synchronizes with Psion Agenda and Contacts/Address book

Synchronizes with Psion Series 5mx Email

All applications are for Microsoft Windows

- If you have Lotus SmartSuite 97 you can open and save previous versions of Lotus files which are Psion compatible. Notes, Calendar & Scheduling synchronizer available separately.
- Microsoft FoxBase is compatible with Borland's dBASE, which is Psion compatible.

A list of compatible applications is also given in PsiWin's Help.

LOTUS NOTES SYNCHRONIZATION

With **InSync Pro** for Lotus Notes 4.5, 4.6 and 5.0, organisations can now mobilise their corporate information onto a Psion mobile computer.

Allowing the busy professional to have business critical information in the palm of their hand, at all times, whether they are on the move, out at meetings or just away from the desk.

InSync Pro provides the ability to synchronize Lotus Notes information onto a Psion, synchronizing Psion's Email, Agenda, Contacts and Data applications with:

- Lotus Notes Calendar;
- Lotus Notes Address Book
- Lotus Notes Database
- Lotus Notes Mail

Additional plug-in software

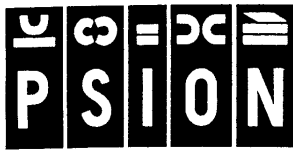

- LinkWise plug-in for Novell Groupwise
- Symantec ACT! plug-in

MOBILE PHONE CONNECTIVITY

CASE STUDIES

REVO

Jill is a researcher who spends a lot of her time abroad. She uses the Revo Word application when she's on the move, to take notes and detailed documents.

When she gets back to her desk, she can synchronize it all with her PC - no need to retype a word or update the file.

In between, her Revo keeps track of her favourite restaurants and her business lunches.

SERIES 5MX

An international marketing executive, Simon hates to waste time, especially when he's travelling.

With his Series 5mx, he keeps up to date with email and checks his corporate intranet for the latest production memos and research schedules.

He syncs his agenda with his secretary, so he's never overbooked. And the Psion's built-in alarm ensures he won't miss a flight.

SERIES 7

Dan is into number crunching, and with his Series 7, he can use the large colour screen to format spreadsheets and create charts while on his way to the office.

He can even check his figures against the database on his company's intranet.

Wherever he is, Dan also uses his Series 7 to keep up with share prices, and, when time permits, unwind with the occasional on-screen game.
