

RECTANGULAR CONNECTORS

FCN-360 SERIES

■ FEATURES

- Many applications
Various connectors are available for connection by means of soldering, wire wrapping, crimping, PC board mounting, and insulation displacement connection (IDC). The user can choose a plug and jack combination that best meet each application.
- Small size for high-density mounting
The connectors are small with a contact and terminal pitch of 2.54 mm (0.100 in.) between pins and between rows and are thus well suited for high-density mounting.
- Sturdy shell guide
Sturdy shell guides are used to prevent mismatching and to protect the pins.
- Excellent cost performance
Streamlined design and automated manufacturing, including use of partial solder plating, provide excellent cost performance.
