

YOUR ADVANTAGE

- Standard case for the logging of operational data.
- Insertion possible for standard pocket-size scanners.
- With/without separate terminal section which is easily accessible.
- Ergonomic shape. Operating area inclined by 20°. A real asset when operating and reading.
- The cases are designed to save you time and money by being easy to assemble and service.
- The design is very attractive with all assembly screws being hidden from view.
- Screw pillars for PCB mounting are suitable for mounting eurocards 100 x 160 mm or double eurocard size.
- Recessed control area to protect membrane keyboards.
- Invisible wall-mounting.
- Flat area for machining and cutouts.

STANDARD COLOURS

Cases: off-white, RAL 9002
 Covers: transparent or off-white, RAL 9002
 Lids: off-white, RAL 9002
 Please refer to colour chart on page 214.

MATERIAL

ABS (UL 94 HB).
 Transparent cover in PC.
 Also available in other materials on request. Please refer to the specifications on pages 215-217.

SEALED, ROBUST, ERGONOMIC AND VERSATILE.

OKW case system for table-top units and wall-mounting cases for a multitude of applications.

DATEC-TERMINAL can be easily operated and logging of operational data can be performed quickly. Userfriendly position of the displays.

- DATEC-TERMINAL L and M divided into two sections – the electronics section at the front and the terminal section at the rear.
- DATEC-TERMINAL SL and S without separate terminal section

APPLICATIONS

As DESKTOP UNIT and WALL-MOUNTING CASE:

- systems for data collection on the job and machines
- access and security controls
- input devices
- measuring, controlling, automatic controlling
- communication equipment
- monitoring systems
- data systems engineering
- simultaneous translation systems
- access to data terminals
- heating and air conditioning
- industrial control systems

EMC

Cases marked with $\neq$ are available with aluminium metallization on demand. Secure bonding is only possible when using a cover. See pages 207-209.

MODIFICATIONS AS PER CUSTOMER'S REQUIREMENTS

Machining on modern CNC-controlled machines. Lacquering. Silk screen and tampo printing. See pages 210-213.

A special asset is the possibility to manufacture a wall-mounting system as well as a table-top unit for the same application. An identical arrangement of the electronic parts can be maintained. The front plate and/or the cover just has to be turned through 180°.

PROTECTION CLASS UP TO IP 54

DATEC-TERMINAL L and M: Only in combination with cover and closed lid or lid with card slot consisting of several parts.

DATEC-TERMINAL SL and S: Only in combination with cover.

USED AS A TABLE-TOP UNIT

This case series attracts the user with its futuristic, ergonomic shape and ample space to accommodate printed circuit boards in Eurocard-sizes – double and single.

The rubber feet supplied together with the unit guarantee a non-slip position.

USED AS A WALL-MOUNTING SYSTEM

The ergonomically inclined front panel allows the case to be mounted within the operator's reach. Displays and readouts are easily legible for all users involved – be it the mechanical engineer, the operator etc.

In order to prevent unauthorized removal, the case is fixed to the wall-suspension element (accessory) by 2 screw.

DATEC-TERMINAL L AND M

Outside dimensions in mm

	Length	Width	Height
L	272	302	101
M	272	168	101

- ① Basic housing
- ② Lid closed
- ③ Lid with card slot one piece
- ④ Lid with card slot consisting of several parts
- ⑤ Cover flat, transp.
- ⑥ Cover flat, off-white
- ⑦ Cover high, off-white
- ⑧ Front panel xS
- ⑨ Front panel xH
- ⑩ Profile plate
- ⑪ Wall-suspension element

Please refer to pages 95-99 for article numbers and individual combinations.

DESIGN

Basic case with terminal compartment in three different versions and two sizes for a variety of combinations. Designed to accommodate circuit boards of Eurocard-size. Ergonomically inclined operating area can be used with front panel, profile plate or cover. Combination of cover with front plate H also possible. Version with lid for the terminal compartment available in two closed variants or with slot for scanners (magnetic cards, barcode readers etc.) in customary sizes and from well-known manufacturers. Separate wall-suspension element allows ergonomic use as an wall-mounting system.

DATEC-TERMINAL SL AND S

Outside dimensions in mm

	Length	Width	Height
SL	180	264	86
S	180	130	86

- ① Basic housing
- ⑤ Cover flat, transp.
- ⑥ Cover flat, off-white
- ⑧ Front panel
- ⑩ Profile plate
- ⑪ Wall-suspension element

Please refer to pages 100-102 for article numbers and individual combinations.

DESIGN

Basic case in two different versions for a variety of combinations. Suitable to accommodate Eurocards. Ergonomically inclined operating area can be used with profile plate, cover or front panel. Separate wall-suspension element allows ergonomic use as an wall-mounting system.

Also suitable for use as BDE-case. Standard pocket-size scanners for chip- or magnetic cards can be assembled laterally or within the cover.

Version II

Version III

Version I

VERSION I

Basic housing, unmachined.

VERSION II

Basic housing, machined for assembly of hinge and quick-action lock.

VERSION III

Same version as II, additionally with machining for assembly of the keylock.

Detailed drawing available on demand in dwg or dxf format.

BASIC HOUSING (Part-No. with 4 see EMC page 92)

Supply

1 Basic housing, 4 self-tapping screws for the PCB fixing,
4 non slip feet, 1 sealing kit

ACCESSORIES FOR COMBINATION

For DATEC-TERMINAL L and M only

OKW

Detailed drawing available on demand in dwg or dxf format.

For basic housing	Version
DATEC-TERMINAL L	flat, ABS, off-white, RAL 9002
DATEC-TERMINAL M	flat, ABS, off-white, RAL 9002
	high, ABS, off-white, RAL 9002

LIDS L AND M CLOSED

Universal lid to cover up the terminal compartment (obligatory for IP 54). Suitable for mounting of pocket scanners on a magnetic, inductive and chip-card base.* Machining required.

Supply:

- 1 lid
- 2 screws M3

Part-No.

B 40 30 417 #

B 40 16 417 #

B 40 16 457

Detailed drawing available on demand in dwg or dxf format.

IMPORTANT: Cannot be used in combination with front panel LS / MS.

H (PH1)

For basic housing	Version
DATEC-TERMINAL L	ABS, off-white, RAL 9002
DATEC-TERMINAL M	ABS, off-white, RAL 9002

LIDS L AND M WITH CARD SLOT, ONE PIECE

Special lid to cover up the terminal compartment. Designed for mounting of pull-through reading devices for magnetic cards.* Machining required. (Please refer also to page 99 for prepared support plate to assemble popular scanners.)

Supply:

- 1 lid, 2 screws

Part-No.

B 40 30 917 #

B 40 16 917 #

Detailed drawing available on demand in dwg or dxf format.

IMPORTANT: Cannot be used in combination with front panel MS.

H (PH1)

For basic housing	Version
DATEC-TERMINAL M	ABS, off-white, RAL 9002

LID M WITH CARD SLOT, CONSISTING OF SEVERAL PARTS

Special lid to cover up the terminal compartment. Designed for mounting of pull-through reading devices for bar code cards.*

Supply:

- 1 lid, assembly parts
- 2 screws M3

Part-No.

B 40 16 017

* Please demand our current list of suitable devices and manufacturers for the desired version of lid or send us a dimensional sheet of the device envisaged by you. On demand, we could also mill the cutouts at a favourable price.
