

Wiha SYSTEM 6.

A Real Multi-tasker.

Colour-coded ChromTop® tips for maximum clarity.

Are you looking for a versatile and compact tool system for your tool-case or for on the road?

Then our SYSTEM 6 system with its 6 mm reversible blades and corresponding handles is the right solution for you. The broad product range provides every user with the right tool. Just choose under the large selection of handles and reversible blades for the relevant tool or for one of the SYSTEM 6 sets.

- The Starter Sets in the practical canvas pouches are equipped with the most commonly used slotted, Phillips and hex reversible blades. Max. 11 additional blades can be added. Therefore you receive an individual and variable tool system that you can expand.
- The Professional Sets are the perfect solution if you are looking for a professional, high-quality universal-set in a rugged metal-box.
- The practical sets in roll-up pouches made of artificial leather are especially handy and compact, therefore ideal for traveling.

The Wiha SYSTEM 6 reversible blade systems are high-quality industrial products, made with state-of-the-art materials and finished to the highest standard of workmanship. The 150 mm long reversible blades are made of high-quality chrome-vanadium-molybdenum steel, and are through hardened and chrome-plated. The handles, made for different applications are especially, ergonomically designed and guarantee optimal force-transmission.

The Wiha SYSTEM 6 system provides the right tool for every application – ideal for industry, trade and the ambitious handy man.

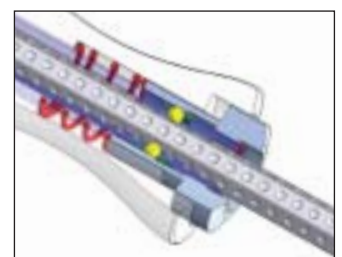

The Wiha SYSTEM 6 range is the compact allrounder for different applications.

Wiha SYSTEM 6:

- Flexible & versatile tools in industrial quality
- Expandable individual tool system
- Ergonomic handles for almost every application
- Colour-coded blades made of high-quality, tough-but-flexible chrome-vanadium-molybdenum steel, through-hardened, chrome-plated
- Wiha ChromTop® tips ensure a perfect fit every time

The new SoftFinish® telescopic handle with click-stop ball clamping for a secure hold and rapid blade change.

SYSTEM 6 Handles.

NEW

284

SYSTEM 6 SoftFinish®-telescopic Handle.

Ergonomic Multi-component Handle with Roll-off Protection.

Handle: With 6 mm hex retainer for all SYSTEM 6 reversible blades and adapters. Enables adjustable blade length from 42 - 114 mm.

Click-stop ball clamp guarantees a secure hold and rapid blade exchange.

Application: Versatile for general applications in the workshop and factory.
