

# EP3 SONIC DEFENDERS®

Passive Hearing Protection Earpieces

EarPro by SureFire® Sonic Defenders are designed to help protect your hearing without interfering with your ability to hear routine sounds and conversations. Safe sound levels are allowed to pass through unchanged, while potentially damaging noises (above 85dB) are reduced using a proprietary design incorporating the patented Hocks Noise Braker® filter. This enables the Sonic Defenders to convert potentially harmful sound levels into harmless energy. To block lower-level noise in quieter situations, such as in an airplane or while sleeping, the attached Sonic Defenders' stopper plugs can be inserted. Made from soft, hypoallergenic, medical-grade polymer, the contoured shape conforms to the natural groove of the ear, holding the earpiece securely in place and providing all-day comfort. Their low-profile design means they stay in place while wearing a helmet or mask, or while using a phone.

Model Number: EP3

UPC Number: Listed Below

## FEATURES & BENEFITS

- Hear conversations and routine sounds levels as though you weren't wearing ear protection.
- Lowers potentially dangerous noise levels above 85dB.
- 24dB Noise Reduction Rating (NRR) with stoppers in.
- Medical-grade hypoallergenic polymer optimizes comfort, effectiveness, and durability.
- Ergonomic design conforms to the natural shape of the ear for comfort, while improving earpiece retention.
- EP3s feature two flanges designed for normal-sized ear canals.
