

DURA WRAP

HARSH ENVIRONMENT PROTECTION WITH EASY ON, EASY OFF HOOK & LOOP CLOSURE TIGHTLY WOVEN CONSTRUCTION • DEFLECTS HIGH PRESSURE HOSE RUPTURES

DURA WRAP (DWN) is the answer to organizing and controlling wires, cables and hoses that are subjected to constant and extreme use. The flexible sleeve is made from tightly woven ballistic nylon with an aggressive, industrial strength hook and loop closure. Dura Wrap is used on wires to keep them together, on hoses and cables to prevent abrasion damage and on chains to keep them from ruining expensive finished surfaces. DW provides greater abrasion resistance and water repellency compared to other nylon sleeves and is being tested for certification under the U.S. Dept. of Labor's MSHA. DW is extremely flexible and easy to install over single or multiple hoses. In the event of a hose rupture, the high strength sleeving helps prevent high pressure fluid from becoming a danger to equipment operators and other personnel.
