**Safety
Connectors ø 2 mm**
touch-protected

and Accessories

according to IEC 1010-2-031

Lab 2-S

The MC[®] – HCK merger produced a concentration of technical know-how together with vertical integration in manufacturing that have opened the way to expansion and rounding out of the product range.

This catalogue presents our jointly developed, touch protected

2 mm Safety Programme

The new 2 mm safety system is used wherever there is insufficient space for the popular 4 mm system.

The concept of employing rigid insulating sleeves in the connectors and cross guards and marked-off gripping zones for test probes and clips was adopted from the 4 mm safety system.

The clearances and creepage distances of the individual components are dimensioned to comply with the stringent requirements of IEC 1010-2-031. Together with the excellent workmanship of our products, this enables us to guarantee maximum safety with the new 2 mm system.

The individual 2 mm components are very lightweight, which means, for example, that a freely hanging lead will put very little weight on the connection point.

Typical applications are found in the areas of control systems and power electronics (e.g. PLC's and their many applications). Also in schools and universities teaching electrical engineering and electronics, test work is frequently done on cramped wiring boards with dangerous voltages – so that ordinary commercial (unprotected) 2 mm connector systems do not offer the necessary safety.

In this catalogue, you'll find:

	Page
☐ 2 mm safety measuring leads (stackable and axial)	2 - 3
☐ 2 mm safety test probes	4
☐ 2 mm safety clips and clip leads	5 - 6
☐ 2 mm safety adapters for connecting to an unprotected 2 mm plug connector system and to the 4 mm safety system	7
☐ 2 mm safety sockets (press-fit or screw-mounting)	8

2 mm Safety Measuring Leads

Highly flexible safety leads with stackable 2 mm safety plugs.

Type	SLK 205-K	SLK 205-K Sil
Rated voltage	600 V, CAT II	600 V, CAT II
Rated current	10 A	10 A
Contact resistance	0.6 mΩ	0.6 mΩ
Lead cross section	0.5 mm ²	0.5 mm ²
Lead insulation	PVC	Silicone
Lead operating temp.	-10°C ... +70°C	-80°C ... +150°C
Insulation	PA	PA
Insulation operating temp.	-40°C ... +80°C	-40°C ... +80°C
Metal part / plating	CuZn / Au	CuZn / Au
Standard colours*	21 - 23	21 - 23
Standard lengths	Order No.	Order No.
15 cm	65.9179-015*	65.9180-015*
30 cm	65.9179-030*	65.9180-030*
45 cm	65.9179-045*	65.9180-045*
60 cm	65.9179-060*	65.9180-060*
100 cm	65.9179-100*	65.9180-100*

Parts list

LS 205-SK

KT 205-SK

Assembly instructions	MA 500		
Plug complete	SL 205-K 65.9182-*

Multistrand wires	FLEXI-2V 0,5 (PVC) 60.7027-* SILI-1V 0,5 (Silicone) 61.7605-*

*Colour code	21 black	22 red	23 blue
--------------	--------------------	------------------	-------------------

2 mm Safety Test Probes

Safety test probe with high-grade steel tip. 2 mm safety socket in handle for accepting 2 mm safety leads or any other spring-loaded 2 mm plug. Handle guard chamfered on both sides (anti-

roll form). Supplied with safety cap to prevent injury and enable non-slip contacting of individual IC legs (2.54 mm grid).

Type	SPP 2-S
Rated voltage	1000 V, CAT II
Insulation	PA
Operating temperature	-40°C ... +80°C
Metal part socket	CuZn / Ni
Tip, condition / material	Refined steel needle
Length of steel needle	4 mm
Standard colours*	21 - 22
Order No.	24.0239-*

Safety cap	SchK-SPP 4
Material	24.5075-33
	PC, transparent

*Colour code	21	22	23
	black	red	blue

**MC**

Both clips built to accept 2 mm safety leads or any spring-loaded 2 mm plug.

2 mm Safety Clip Leads

Highly flexible safety test lead. One end with crocodile clip, fully insulated with toothed gripping jaws with fine-wire clamping surface, other end with axial-entry 2 mm safety plug.

Type	XALF	XALS
Rated voltage	600 V, CAT III	600 V, CAT III
Rated current	10 A	10 A
Lead cross section	0.75 mm ²	0.75 mm ²
Lead insulation	PVC	Silicone
Lead operating temp.	-10 °C ... +70 °C	-80 °C ... +150 °C
Insulation	PA / TPE	PA / TPE
Crocodile clip / plug		
Operating temperature	-40°C ... +80°C	-40°C ... +80°C
Crocodile clip / plug		
Metal part / plating	CuZn / Ni 	CuZn / Ni 
Standard colours*	21 - 23	21 - 23
Standard lengths	Order No.	Order No.

2 mm Safety Adapters

Adapters for connecting an uninsulated 2 mm system or a 4 mm safety system to the 2 mm safety system by means of a

2 mm rear socket. Adapter A-2/2 can be plugged into any 2 mm sockets.

Type	XWA-2/4	XA-2/4	A-2/2
Rated voltage 	600 V, CAT III	600 V, CAT III	This adapter, even in conjunction with safety leads, can only be used at a rated voltage of 30 V _{AC} / 60 V _{DC}
Rated current	10 A	10 A	10 A
Contact resistance	0.8 mΩ	0.6 mΩ	0.6 mΩ
Insulation	PA	PA	PA
Operating temperature	-40°C ... +80°C	-40°C ... +80°C	-40°C ... +80°C
Metal part / plating	CuZn / Ni	CuZn / Au	CuZn / Au
Terminal	4 mm safety plug	4 mm safety plug	2 mm multilam plug without insulation
Standard colours*	21 - 23	21 - 23	21 - 23
Order No.	65.9190-*	65.9192-*	65.9191-*

*Colour code	21 black	22 red	23 blue
--------------	-------------	-----------	------------

2 mm Safety Sockets

Fully insulated safety sockets for accepting 2 mm safety plugs and any commercially available spring-loaded 2 mm plug. Socket SEB 2-R is pressed into predrilled panels of

plastic, metal, etc. Socket SLB 2-R can also be screw-mounted. Both sockets have a round gold-plated brass pin for connecting purposes.

Type	SEB 2-R	SLB 2-R
Rated voltage	600 V, CAT III	600 V, CAT III
Rated current	10 A	10 A
Insulation	PA	PA
Operating temperature	-40°C ... +80°C	-40°C ... +80°C
Metal part / plating	CuZn / Au	CuZn / Au
Terminal	Round pin ø 1.9 mm	Round pin ø 1.9 mm
Panel drilling	ø 8.3 mm	see sketch
Panel thickness	min. 1.5 mm	see sketch
Standard colours*	21 - 23	21 - 23
Order No.	65.9193-*	65.9194-*

Assembly instructions	MA 510	MA 511
Assembly material	—	M8 x 0.5 round nuts, spacer sleeve and washer included
Assembly tools	Assembly tool MB 2-S, Order No. 25.0028	Counter spanner SS 2, Order No. 25.0022, Twist stop spanner SS 2-S, Order No. 25.0023
Drill	HSS 8.3	see sketch (panel drilling)
Terminal	Round connecting receptacle (CuZn / Au) RSH ø 1.9 mm 23.5202

Laboratory Product Group

Lab 1

Miniature-Connectors
ø 0.5 mm – ø 2 mm,
plug connectors for printed circuits

Lab 2/3

Laboratory connectors
ø 2 mm, ø 2.3 mm, ø 3 mm,
laboratory leads, test leads, plugs,
sockets, test accessories

Lab 2-S

Safety connectors ø 2 mm,
safety measuring leads, test probes,
clips, clip leads, adapters and safety
sockets according to IEC 1010-2-031

Lab 4

Laboratory connectors ø 4 mm,
connecting leads, plugs, sockets,
test accessories

Lab 4-S

Safety connectors ø 4 mm,
Safety plug connectors, safety
connecting leads, safety sockets
and test accessories
according to IEC 1010-2-031

Lab Si

Safety connectors ø 2 mm,
ø 4 mm, ø 6 mm, Safety test- and
connection leads, -sockets, -probes,
-clips, -adapters, fully insulated
BNC-connectors, touch protected in
accordance to IEC 1010-2-031

Test Accessories

ø 2 mm and ø 4 mm test- and
connection leads, probes, clips,
adapters, sockets, ø 4 mm
safety connectors and fully insulated
BNC-connectors, touch protected in
accordance to IEC 1010-2-031

Stranded Leads

highly flexible, very thin wires,
extremely resistant Silicone, PVC,
Thermoflex and Teflon® -FEP sheathing

High Current Product Group

Ho 1

Round connectors, single-pole
uninsulated, up to 6000 A

Ho 2

Round connectors ø 6 mm, single-pole,
insulated, up to 100 A

Ho 3

Round connectors, single-pole, insulated
with snap-in lock, watertight, up to 600 A

Ho 4

Round connectors, single-pole, insulated
with bayonet lock, up to 1000 A

Ho 5d

Double fork plugs for slide-in rack
connections up to 1500 A

Ho 6

Crossbar distributors, up to 1000 A

Ho 7b

Primary circuit connectors for electric
welding transformers

Ho 7c

Multi-pole connectors for
multi-couplings / docking systems

Ho 7s

Connections for electric vehicles
630 V, up to 330 A

Ho 8

Accessories for
electric welding apparatus

Ho 9

Connectors for equipotential bonding
in medical installations
