

Auxiliary Contacts For Isolator Switches

Neutral Contact:

Electrical Symbol

Features:

Neutral Contact (Early Make Late Break):

- Early make late break contact can be fitted either side of the switch
- All switch ratings at AC22
- Rear mount for door interlock and boxed isolator
- Front mount for panel mount isolators

Auxiliary Changeover Contacts:

- 1 NO contact early break/late make + 1 NC contact can be fitted either side of the switch
- Rear mount for door interlocked and boxed isolators

Main Pole Contacts:

- Equivalent switch electrical rating used as 4th/5th pole on either side of the switch
- All switch ratings at AC22
- Front mount for panel mounting Isolators
- Rear mount for door interlock and boxed isolators.

Auxiliary Changeover Contact:

Electrical Symbol

Applications:

Neutral Contact (Early Make Late Break):

To be used as neutral conductor to the switch.

Auxiliary Changeover Contacts:

The auxiliary contact module has two contacts, NO and NC. The NO contact is an early break, late make contact.

Main Pole Contacts:

For switching action of additional pole, when mounted with the switch.

The additional pole on either side of the switch can be used to switch on any single phase requirements simultaneously.

Main Pole Contact:
