

# MLCC Tin/Lead Termination "B" (LD Series)

## C0G (NP0) – General Specifications

KYOCERA AVX will support those customers for commercial and military Multilayer Ceramic Capacitors with a termination consisting of 5% minimum lead. This termination is indicated by the use of a "B" in the 12th position of the KYOCERA AVX Catalog Part Number. This fulfills KYOCERA AVX's commitment to providing a full range of products to our customers. KYOCERA AVX has provided in the following pages a full range of values that we are currently offering in this special "B" termination. Please contact the factory if you require additional information on our MLCC Tin/Lead Termination "B" products.

PART NUMBER (SEE PAGE 4 FOR COMPLETE PART NUMBER EXPLANATION)

Not RoHS Compliant

| LD05                                                                                                                                                | 5                                                                                                   | A                                              | 101                             | J                                                                                                                                                                                                    | A                                    | B                                                                  | 2                                                                    | A                   |

# MLCC Tin/Lead Termination "B"

## C0G (NP0), Sn/Pb – "U" Series Capacitors

### GENERAL INFORMATION

"U" Series capacitors are C0G (NP0) chip capacitors specially designed for "Ultra" low ESR for applications in the communications market. Max ESR and effective capacitance are met on each value producing lot to lot uniformity. Sizes available are EIA chip sizes 0603, 0805, and 1210.

| Size | A                       | B                       | C                | D                           | E                |
|------|-------------------------|-------------------------|------------------|-----------------------------|------------------|
| 0402 | 0.039±0.004 (1.00±0.1)  | 0.020±0.004 (0.50±0.1)  | 0.024 (0.6) max  | 0.010 ± 0.006 (0.25 ± 0.15) | 0.014 (0.36) min |
| 0603 | 0.060±0.010 (1.52±0.25) | 0.030±0.010 (0.76±0.25) | 0.036 (0.91) max | 0.010±0.005 (0.25±0.13)     | 0.030 (0.76) min |

### HOW TO ORDER

**LD05**

Case Size  
LD02 = 0402  
LD03 = 0603  
LD05 = 0805  
LD10 = 1210

**1**

Voltage Code  
3 = 25V  
5 = 50V  
1 = 100V  
2 = 200V

**U**

Dielectric =  
Ultra Low  
ESR

**100**

Capacitance  
EIA Capacitance Code in pF.  
First two digits = significant figures or "R" for decimal place.  
Third digit = number of zeros or after "R" significant figures.

**J**

Capacitance  
Tolerance Code  
B = ±0.1pF  
C = ±0.25pF  
D = ±0.5pF  
F = ±1%  
G = ±2%  
J = ±5%  
K = ±10%  
M = ±20%

**A**

Failure Rate  
Code  
A = Not  
Applicable

**B**

Termination  
B = 5% min lead

**2**

Packaging  
Code  
2 = 7" Reel  
4 = 13" Reel  
9 = Bulk

**A**

Special Code  
A = Standard

### HOW TO ORDER

#### ELECTRICAL CHARACTERISTICS

##### Capacitance Values and Tolerances:

Size 0402 - 0.2 pF to 22 pF @ 1 MHz  
Size 0603 - 1.0 pF to 100 pF @ 1 MHz  
Size 0805 - 1.6 pF to 160 pF @ 1 MHz  
Size 1210 - 2.4 pF to 1000 pF @ 1 MHz

##### Temperature Coefficient of Capacitance (TC):

0±30 ppm/°C (-55° to +125°C)

##### Insulation Resistance (IR):

10<sup>12</sup> Ω min. @ 25°C and rated WVDC  
10<sup>11</sup> Ω min. @ 125°C and rated WVDC

##### Working Voltage (WVDC):

Size Working Voltage  
0402 - 50, 25 WVDC  
0603 - 200, 100, 50 WVDC

0805 - 200, 100 WVDC

1210 - 200, 100 WVDC

##### Dielectric Working Voltage (DWV):

250% of rated WVDC

##### Equivalent Series Resistance Typical (ESR):

040 - See Performance Curve, page 306  
0603 - See Performance Curve, page 306  
0805 - See Performance Curve, page 306  
1210 - See Performance Curve, page 306

##### Marking:

Laser marking EIA J marking standard (except 0603) (capacitance code and tolerance upon request).

##### Military Specifications

Meets or exceeds the requirements of MIL-C-55681

MLCC Tin/Lead Termination “B”  
X8R – General Specifications

KYOCERA AVX will support those customers for commercial and military Multilayer Ceramic Capacitors with a termination consisting of 5% minimum lead. This termination is indicated by the use of a “B” in the 12th position of the KYOCERA AVX Catalog Part Number. This fulfills KYOCERA AVX’s commitment to providing a full range of products to our customers. KYOCERA AVX has provided in the following pages a full range of values that we are currently offering in this special “B” termination. Please contact the factory if you require additional information on our MLCC Tin/Lead Termination “B” products.

Not RoHS Compliant

PART NUMBER (SEE PAGE 4 FOR COMPLETE PART NUMBER EXPLANATION)

| LD05                                                                                                                                                | 5                                                                                                   | F          | 101                             | J                                                                                                                                              | A                  | B                                                                      | 2                                                                 | A                |

# MLCC Tin/Lead Termination "B"

## X7R – General Specifications

KYOCERA AVX will support those customers for commercial and military Multilayer Ceramic Capacitors with a termination consisting of 5% minimum lead. This termination is indicated by the use of a "B" in the 12th position of the KYOCERA AVX Catalog Part Number. This fulfills KYOCERA AVX's commitment to providing a full range of products to our customers. KYOCERA AVX has provided in the following pages a full range of values that we are currently offering in this special "B" termination. Please contact the factory if you require additional information on our MLCC Tin/Lead Termination "B" products.

**Not RoHS Compliant**

### PART NUMBER (SEE PAGE 4 FOR COMPLETE PART NUMBER EXPLANATION)

| LD05                                                                                                                                 | 5                                                                                                   | C                 | 101                             | J                                                                                                                                                                                                    | A                   | B                                                                      | 2                                                                        | A                   |

# MLCC Tin/Lead Termination "B"

## X5R – General Specifications

KYOCERA AVX will support those customers for commercial and military Multilayer Ceramic Capacitors with a termination consisting of 5% minimum lead. This termination is indicated by the use of a "B" in the 12th position of the KYOCERA AVX Catalog Part Number. This fulfills KYOCERA AVX's commitment to providing a full range of products to our customers. KYOCERA AVX has provided in the following pages a full range of values that we are currently offering in this special "B" termination. Please contact the factory if you require additional information on our MLCC Tin/Lead Termination "B" products.

**Not RoHS Compliant**

### PART NUMBER (SEE PAGE 4 FOR COMPLETE PART NUMBER EXPLANATION)
