

Oden precision stripping tool

pressmaster®

— AN RITLÉ COMPANY —

Tor is a precision stripping tool for removing the sheath from signal, telephone, audiovisual, instrumentation and data transmission copper and fibre optic cables. Fine adjustability and repeatability assured by 10-position adjustment wheel. Simply squeezing Oden together opens the stripping cavity - insert cable, rotate once, remove from cable and pull off the scrap insulation sheath. Smooth, rounded, pocketable and lightweight design. No open blade. Replacement blades encased within a plastic cassette. Strips the sheath from most multi-core and fibre optic cables up to 11mm/0.43inch in diameter. Manufactured from a new impact resistant nylon Oden has been tested to over 50,000 cycles. Replacement blade cassettes available.

Specifications : cable capacity 2.5-11mm/0.1-0.43inch diameter. Insulation thickness
