

BASIC Stamp® BS2p40-IC Module Schematic

Rev. D
Updated 8-11-06 © Parallax, Inc.

Notes:

The 15µF, 16V capacitor may be a 10-22µF, 6.3-16V tantalum capacitor.

The 24WC128J EEPROM may be an industrial 24WC128JI EEPROM.

The 20 MHz resonator is not polarity sensitive and the middle pin can be connected to either VDD or VSS.

PC to BS2p40-IC Connection
