

Subject: Part Number:- 05DN-01000-A-200 = FIO 414220

> The breakdown of the part number 05DN-01000-A-200 is as follows;

> 05DN = Section Profile Type.

> 01000 = length of 100mm (i.e. 150mm would be 01500 and 1 metre would be 10000)

> A = that there is no machining carried out on the part (if the part was to be machined to customers drawing this would change to S)

>

> 2 = Black Anodised Finish (if unit was not anodised but in it's mill finish, then this would be 1)

>

> 00 = this relates to any installation notches on the part, this is not applicable to this section so 00 denotes this.
