Chassis Support Brackets

Simple way to support heavy equipment within the rack

Facilitates ventilation of high heat-generating equipment

- Angles help support equipment until it can be mounted
- Allows equipment to be placed into the rack without attaching the rackscrews - ideal for fast swap outs
- Sold in pairs
- **IMPORTANT NOTE:** These Chassis Support Angles must be attached to the Z-Rail or to a [Z-Rail adaptor](#) (sold separately.) These brackets are not compatible with standard L-shaped rackrail without certain hardware or rackrail adjustments. Compatible with MRK, VRK, VMRK and WMRK racks only.
