Heavy Duty Mounting Clamp

Imatronic's Heavy Duty Mounting Clamp has parallel and vertical adjustment which allows the user to aim the laser in any required direction or angle, the robust aluminium construction also assists in conducting heat away from the laser body as well as prevents movement due to shock and vibration. The base plate of the Heavy duty clamp has a series of threaded holes to allow the Heavy Duty Clamp to be securely fastened to stable surface.

The Heavy Duty Mounting Clamp will fit a wide range of Imatronic products. Below is a list of the products and part numbers
