RL-7000

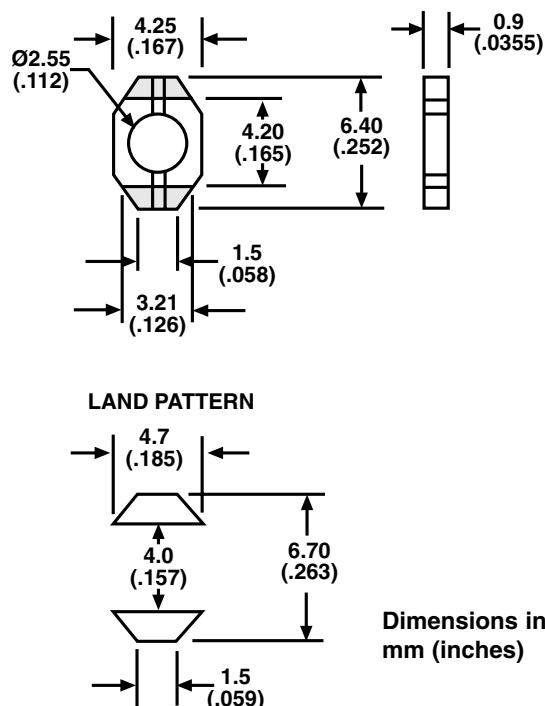

SHIELDED SMD POWER INDUCTORS Patent Pending

Measuring under 1mm high, the RL-7000 is the **WORLD'S LOWEST PROFILE**, shielded, power inductor. This series offers the smallest possible foot print, 4.2 x 6.4mm, combined with the lowest height. The shield, along with high saturation current, will aid in the suppression of EMI. This product will be excellent for hi-tech applications such as mobile phones, PC cards, PDA's, notebook computers, and other handheld devices.

NOTES:

- * Saturation current for a 10% decrease in inductance value
- Tested @ 100kHz, 0.1 Vrms, 25°C
- I rms is the average current for a 40°C rise above 25°C ambient
- Operating temperature range -40°C to +105°C
- Inductors are supplied on tape and reel 6000 pcs. per reel
