

1.27mm Pitch Multi-function Two Piece Connector

FX2 Series

■ Features

1. Various connection with various product line

Stacking connection		Vertical type		Cable connection
Through hole type	SMT type	Through hole type	SMT type	
 Through hole type SMT type		 Through hole type SMT type		 Cable only

Through hole type 	⇐	Horizontal type  			
SMT type 		Vertical type <table><tr><th>Through hole type</th><th>SMT type</th></tr><tr><td></td><td></td></tr></table>	Through hole type	SMT type	
Through hole type	SMT type				
					
Cable only 	Cable connection 				

Stacking connection (Stack height: 12~16mm)

Horizontal Connection

Vertical Connection

2. Easy One-Touch Operation

The ribbon cable connection type allows easy one-touch operation with either single hand.

Insertion and Extraction

(1) Pick internal locks with thumb and the index finger.

(2) With unique and preferable click feeling, the cable and connector can be inserted or withdrawn.

(For insertion, the operation proceeds from procedure (2) to (1).)

FX2 Series 1.27mm Pitch Multi-function Two Piece Connector

3. Board to board type

① Flux swell prevention

The straight through hole type takes the complete flux tight action from the board back side at solder dipping. The type is prepared, corresponding to whether or not cleaning is required.

② Stack height 12mm to 16mm

The board stack height can be set to every 1 mm unit up to 12 to 16mm.

③ Mis-insertion preventive mechanism

The mating area is designed in a mechanism so as to prevent mis-insertion, and complete countermeasures have been taken against wrenching.

Applications

Computers, peripheral equipments, various machines etc.

Product Specifications

Rating	Current rating 0.5A	Operating Temperature Range -55°C to +85°C (Note 1)	Storage Temperature Range -10°C to +60°C (Note 2)
	Voltage rating 125V AC	Operating Humidity Range 40 to 80%	Storage Humidity Range 40 to 70% (Note 2)

Item	Specification	Condition	
1. Insulation Resistance	1000M ohms min	250V DC	
2. Withstanding Voltage	No flashover or insulation breakdown.	300V AC/1 minute	
3. Contact Resistance	45m ohms max.	100mA	
4. Vibration	No electrical discontinuity of 1μs or more	Frequency: 10 to 55 Hz, single amplitude of 0.75 mm, 2 hours in each of the 3 directions.	
5. Humidity (Steady state)	Contact resistance: 55m ohms max. Insulation resistance: 100M ohms min.	96 hours at temperature of 40°C and humidity of 90% to 95%	
6. Temperature Cycle	Contact resistance: 55m ohms max. Insulation resistance: 100M ohms min. No damage, cracks, or parts looseness.	(-55°C: 30 minutes→15 to 35°C: 2 to 3 minutes → 85°C: 30 minutes→15 to 35°C: 2 to 3 minutes) 5 cycles	
7. Durability (Mating/un-mating)	Contact resistance: 55 m ohms max.	500 cycles	
8. Resistance to soldering heat	No deformation of components affecting performance.	SMT Type	Reflow: At the recommended temperature profile Manual soldering: 360°C for 5 seconds
		DIP Type	Solder bath: 260°C for 10 seconds Manual soldering: 360°C for 5 seconds

Note 1: Includes temperature rise caused by current flow.

Note 2: The term "storage" refers to products stored for long period of time prior to mounting and use. Operating Temperature Range and Humidity range covers non conducting condition of installed connectors in storage, shipment or during transportation.

Note 3: Information contained in this catalog represents general requirements for this Series. Contact us for the drawings and specifications for a specific part number shown.

Material

Parts		Material	Finish	Remark

FX2 Series 1.27mm Pitch Multi-function Two Piece Connector

■Receptacle SMT Type

●Straight Type

Note 1 : The 120 contacts type differs in the style.

Note 2 : The connector positioning bosses are constructed to press fit into the board with light force. When mounting on the board, press the connector lightly from the top and check that the positioning bosses are securely inserted in the board holes and that the connector leads are engaged in the board. The recommended boss hole for use with automatic mounting is illustrated in fig. 1.

●Straight Type

Note : The connector positioning bosses are constructed to press fit into the board with light force. When mounting on the board, press the connector lightly from the top and check that the positioning bosses are securely inserted in the board holes and that the connector leads are engaged in the board. The recommended boss hole for use with automatic mounting is illustrated in fig. 1.

PCB mounting pattern

n = Number of Contacts

- | | |
|-------------------------|-------------------------|
| (A) a1 | (E) b1 |
| (B) a2 | (F) b2 |
| (C) $a \frac{n}{2} - 1$ | (G) $b \frac{n}{2} - 1$ |
| (D) $a \frac{n}{2}$ | (H) $b \frac{n}{2}$ |

FX2 Series 1.27mm Pitch Multi-function Two Piece Connector

Header SMT Type

Right Angle Type

Note: The FX2A type does not have bosses as shown in the illustration.

PCB mounting Pattern

Recommended Screw Clamp

Use M2 screw for fixture.
 Recommended torque is 0.15(N•m).
