Two black SFP+ modules are shown on white PCBs. The module on the left is a standard SFP+ module with a single row of pins. The module on the right is a dual-port SFP+ module with two rows of pins. Both modules have a large, rectangular body with a series of small, circular holes along the top edge.

Unless otherwise approved in writing by Samtec, all parts and components are designed and built according to Samtec's specifications which are subject to change without notice.
