

BERNARD BABANI BP378

45 Simple Electronic Terminal Block Projects

- ❑ Contains 45 easy-to-build electronic projects that can be constructed, by an absolute beginner, on terminal blocks using only a screwdriver and other simple hand tools. No soldering is needed.
- ❑ Most of the projects can be simply screwed together, by following the layout diagrams, in a matter of minutes and readily unscrewed if desired to make new circuits. A theoretical circuit diagram is also included with each project to help broaden the constructor's experience and knowledge.
- ❑ The projects included in this book cover a wide range of interests under the chapter headings:-
 - Connections and Components
 - Sound and Music
 - Entertainment
 - Security Devices
 - Communication
 - Test and Measuring
- ❑ A wonderfully easy way for all newcomers to get started in the fascinating hobby of electronics.
