

B

Diagram illustrating the dimensions and components of a cable joint:

- S2**: Dimension indicating the distance from the left end of the joint to the start of the main cable body.
- L**: Dimension indicating the length of the main cable body.
- P**: Dimension indicating the length of the transition section (taper).
- S1**: Dimension indicating the distance from the right end of the joint to the start of the main cable body.
- ID-1**: Dimension indicating the internal diameter of the main cable body.
- MAX. WIRE INSUL. DIA.**: Dimension indicating the maximum wire insulation diameter.
