EMR
Vision Set

EMR quality mini-mirrors are ideal for optimising inspection procedures on components and boards.

Set includes the "EMR" ESD universal metal handle and 3 different kinds of mirrors:

- 1 SQUARE mirror-probe, straight needle, side 9,41 mm
- 1 SIDE SMALL rectangular mirror-probe, 45° angled needle, dim 8,3 x 1,16 mm
- 1 T-LARGE rectangular mirror-probe, 45° angled needle, dim 24,07 x 4,8 mm

ALORON

- Microscope 30 x
- Gives unparalleled sharp and brilliant vision, with wide field of view with 30 x magnification.
- Unique built-in light and easy focussing system. Uses two standard 1.5 V batteries.
- A must for inspection of PC boards and miniature parts.
