

DVI-2560

The Digital View DVI-2560 interface controller for ultra high resoution WQXGA LCD panels.

The DVI-2560 is a purpose built high-performance dual-channel DVI interface controller capable of driving 2560x1600 WQXGA LCD panels from Samsung and LG. Operating from a single 24 volt power supply, the controller derives all necessary voltages for the controller, panel and inverter operation.

Panel Connectivity

TFT: 2560x1600 WQXGA Samsung LTB300M1-P01
Samsung LTM300M1-P01
LG LM300W01-A3

Input: Dual Channel DVI-D

Features

Interface: TMDS panel interface
Function Controls: External buttons,
Functions: Inverter brightness, power on/off
Indicators: LED 1 - input signal present,
LED 2 - backlight status
Dimensions: 107mm x 92mm (4.2" x 3.6")
Form Factor: DV standard & mounting holes
Inverter Support: DPMS Enable
Inverter Voltage: 24V DC
Panel Signal: TMDS
Panel Voltage: 18V DC (derived on-board)
Power Requirements: 24V DC, 1.5W (controller only)
Status Indicator: Dual Color LED support.

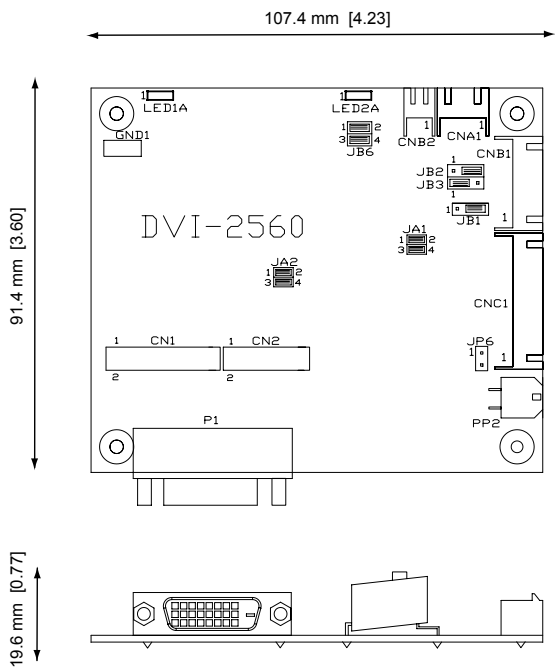

Reliability

Calculated Mean Time Between Failures - In excess of 100,000 hours. Warranty - 3 years

Options

Custom layouts & connectors. Alternative panel support.

Custom Engineering Services - Custom input timing, panel timing, splash screen, OSD Menu, conformal coatings, layouts etc.
