

Breakthrough in energy efficiency and higher lumen packages

Philips Fortimo LED Downlight Module (DLM) Gen 3 System Downlighting Systems Simplified

The Fortimo LED Downlight Module is equipped with a special remote phosphor technology, that enables very high levels of LED efficacy. This general lighting solution continues on the idea of LED Systems Simplified. Additionally the excellent lumen maintenance and long lifetime of up to 50,000 hours* make frequent re-lamping a thing of the past – a promise that is backed up by a Philips five-year limited warranty.

Peace of mind for manufacturers

The lamp and driver have been developed and rigorously tested in combination with each other, including key enhancements like thermal protection for the module. Additionally, the module has been successfully implemented using LM-80 guidelines. As a result, they provide a great lumen output and light distribution, while efficacy upgrades can be implemented when available.

Future-proof modules

As energy efficiency advances in LEDs are made and new bins become available, they will be incorporated into the Fortimo LED Modules, offering higher efficacies, without changing the dimensions, shape or lumen output of the system. This allows luminaire

manufacturers to plan and design new luminaire ranges for the coming years.

Benefits of Fortimo Downlight Module System

- Increased efficacies
- CRI increased to a minimum of 80
- Color consistency increased to 3 SDCM
- Dimming options include 0-10V, TE and DALI
- Offering expanded to include 2700K and 2800lm packages

Applications

General lighting in:

- Offices (areas such as hallways, receptions, boardrooms, etc.)
- Hotel lobbies and receptions areas
- Retail high-end shops

* Average rated life is based on engineering data testing and probability analysis. The hours are at the B50, L70 point - 50,000 hours life with 70% lumen maintenance at Tc point of 65° C.

PHILIPS
sense and simplicity

**Available first quarter 2012

1. Photometric testing consistent with CIE 127:2007 2nd Edition

2. 100% of all production units fall between -10% and +20% of listed values

3. All CRI are 80 or above

4. Complies with ANSI C78.377A Specifications

5. All production units will fall between +/- 0.2 of listed value
