

## EPNL5 - Automatic Dusk to Dawn Night Light

Automatic dusk-till-dawn night light simply plugs straight into a 13A socket to provide instant soft and gentle light. A built-in sensor turns the light ON at dusk, then OFF at dawn and prevents daytime operation.

- Simply plug into socket for instant night light.
- Provides gentle light for comfort and safety.
- Ideal for use in nurseries, young children's bedrooms, landings & hallways.
- Built in sensor prevents daytime operation.
- Supplied with bulb in unit and spare in pack.
