UTO

Dynamic IP68 / IP69K
High salt spray resistance
RoHS compliant

Metal circular connector

Description

"UTO" industrial circular connectors are a range of multiway connectors available in 8 shell sizes and 8 insert arrangements all interchangeable, interchangeable and intermountable with the TRIM TRIO "UTG" and "UTP" industrial connector families.

"UTO" is equipped with identical shells from military connectors complying to MIL-C-26482 spec. Strong and rugged built to resist every environmental and mechanical requirement for indoor and outdoor applications. Amongst several characteristics, "UTO" offers possibilities on: Shielding, High levels on sealing and salt spray. UTO is also the perfect solution to connect cat5e Ethernet applications in combination with other signals, using the same TRIM TRIO contacts (consult factory for more info).

Features and benefits (see p2)

- Suitable for shielding applications
- Available in 8 shell sizes and 8 insert arrangements.
- Available in plug and receptacle versions for both male and female contacts.
- Different insert orientations possible.
- Plastic inserts with flammability rating: UL94-V0.
- **2 levels of water protection:** Dynamic IP67 and IP68 both versions are IP69K
- **2 levels of salt spray:** 48h and 96h Higher salt spray resistance (200/500h) upon request
- Cat5e Ethernet compatible. Can be combined with other signals offering the advantage to use same contacts (consult factory).
- UL recognition in process.
- Metal bayonet ring:
 - Metal wave spring loaded
 - Locks with audible positive "click"
 - Assures 500 matings and unmatings
- RoHS compliant

Performance characteristics

Operating temp:	-40°C to +105°C
Insulation resistance:	5000 MΩ min.
Test potential:	2000 VAC
Durability:	500 matings and unmatings.
Vibration resistance:	Per MIL-STD202 method 204
Thermal shock:	Per MIL-STD202 method 207
Corrosion:	Salt spray per MIL-STD 202 method 101 48h (standard version) 96h (black anodised coupling ring)
Higher salt spray resistance (200/500h) upon request	
Shielding effectiveness: 95 dB at 1 Mhz	
Degree of water protection per DIN 40050: Dynamic IP67 / IP68 / IP69K in mated condition and in combination with sealed back shell.	

Construction

Shells:	Zinc alloy
Backshells and cable glands:	Brass
Coupling ring:	Aluminium alloy
Coupling spring:	Spring stainless steel
Insert:	Glass-filled thermoplast UL94-V0
RoHS compliant	

Contact accommodation

- "UTO" connectors accept TRIM TRIO size 16 crimp-type removable snap-lock contacts (see contacts section)
- Contacts to be ordered separately.

How to order

	UTO	0	14	12	P	-	H or H6	--	--
	UTO	6	14	12	S	-	H		
Body variation:	0 : Wall mounting receptacle 6 : Cable plug 7 : Jam nut receptacle for rear panel mounting								
Shell size:									
Insert arrangement:									
Type of contacts:	P : Pin contacts S : Socket contacts								
Insert polarisation:	No letter : Standard version W, X, Y, Z : Different orientations (consult factory)								
Application:	H : Standard version, water protected IP 67 & IP 69K H6 : Water protected IP 68 & IP 69K (only needed for wall mounting & jam nut receptacles)								
Design variation:	No letter : Standard version Others : Special versions								
Plating:	No letter : Standard is nickel plating (48h salt spray) 01 : Black anodised jam nut (96h salt spray) 02 : Black anodised coupling ring (96h salt spray)								

New UTO-UTOW series

New UTO – UTOW series:

- The exclusive new product range in the TRIM TRIO broadline.
- Aesthetic and top class performances

UTO – UTOW series major technical features & benefits

• Full metal bayonet connector

- Enabling 500 mating-unmating without wear out
- Secure locking device: audible “click” when mating

• Dynamic IP68*

Connector will remain IP68 even when:

- Pulling on the cable
- Bending the cable

- * With appropriate back shell
- * Exists also in IP67 version

• Dynamic IP69K*

Connector withstands high pressure water cleaning.

- * With appropriate back shell

• High salt spray resistance*

- Can be used in severe environment

* Exists in 48 and 96 hours salt spray version

* Higher salt spray resistance (e.g. 200 or 500 hours) upon request

• RoHS compliant

- Cadmium and lead free materials are used

• In accordance with following standards

- UTO is Ethernet Cat5e compatible (consult factory)
- UTO-UTOW ranges are upgradeable to highspeed solutions

For detailed information on UTO and UTOW series offering see pages 21 to 31

UTO

Dynamic IP68 / IP69K
High salt spray resistance
RoHS compliant

Cable plug for pin contacts (UT06- - -PH)

Part number	Shell size	Ø A ±0.2	B max.	Ø C ±0.15	Ø D ±0.15	E ±0.25
UT06104PH	10	21.80	33.00	10.2	20.00	23.25
UT06128PH	12	26.10		13.4	23.60	
UT061412PH	14	29.30		16.7	26.80	
UT061619PH	16	32.45		19.7	30.00	
UT061823PH	18	35.25		21.7	33.30	
UT062028PH	20	38.80	25.20	24.9	36.55	25.20
UT062235PH	22	42.00		28.1	39.50	
UT062448PH	24	45.05		31.2	42.60	

Part numbers are suitable for both IP67 and IP68 water protection

For 96h salt spray version add "02" behind "H" e.g. UT061412PH02 (only bayonet ring will be black anodised)

Cable plug for socket contacts (UT06- - -SH)

Part number	Shell size	Ø A ±0.2	B max.	Ø C ±0.15	Ø D ±0.15	E ±0.25
UT06104SH	10	21.80	33.00	10.2	20.00	23.25
UT06128SH	12	26.10		13.4	23.60	
UT061412SH	14	29.30		16.7	26.80	
UT061619SH	16	32.45		19.7	30.00	
UT061823SH	18	35.25		21.7	33.30	
UT062028SH	20	38.80	27.30	24.9	36.55	25.20
UT062235SH	22	42.00		28.1	39.50	
UT062448SH	24	45.05		31.2	42.60	

Part numbers are suitable for both IP67 and IP68 water protection

For 96h salt spray version add "02" behind "H" e.g. UT061412SH02 (only bayonet ring will be black anodised)

Insert rotation positions

The table shows possible insert rotation positions.

5 positions N,W,X,Y and Z differ in the degree of rotation for the various connectors sizes.

The table indicates the exact degree of rotation.

Note: Insert rotation positions are optional (consult factory)

Shell size	Contact number	Insert rotation positions			
		W	X	Y	Z
10	4	45	-	-	-
12	8	26	-	-	-
14	12	60	-	-	-
16	19	30	165	-	315
18	23	-	158	-	270
20	28	79	-	259	-
22	35	13	162	198	265
24	48	60	120	189	351

Extra O-seals for wall mounting (UT00) and jam nut (UT07) receptacle connectors

An extra O-seal must be mounted on the receptacle connectors when a backshell is used. This to guarantee the IP68 sealing level
