# WDT3200

PORTABLE DATA TERMINAL

Big Business Tools. Small Business Attitude.

The **Wasp WDT3200** is Wasp's flagship portable data collector for mobile inventory data capture and tracking applications in industries such as manufacturing, distribution and warehousing, retail and logistics. Featuring a crisp, QVGA screen and running the latest Windows CE 5.0 core operating system, the WDT3200 portable data terminal can handle today's inventory applications and is ready for future programming needs.

The rugged design can support even the harshest environments, yet its ergonomics especially with the optional pistol grip make it a comfortable companion for inventory applications. It's long lasting battery and built in Bluetooth wireless connectivity make it the workhorse of Wasp's portable data terminal line-up. The WDT3200 features an integrated linear (1D) laser barcode scanner, a 36-keypad and 64Mb of SDRAM. Along with its IP54 rating, it's an ideal portable data terminal for indoor or outdoor use.
