APPLICATION

The 46 Series LED Stop/Tail/Turn lamps were developed by Dialight for heavy-duty applications where increased safety and reliability are a major concern. These lamps were designed to conform to all of the FMVSS marker/clearance requirements for both existing and new vehicle designs.

The 46 Series Stop/Tail/Turn lamps use Dialight's unique durable potted construction which results in a superior lamp seal. The use of integral wiring results in fewer interconnections between the lamp and the vehicle harness.
