

Ø1mm Shorting Link Plugs

-
- Four different types of electrical connectors are shown. There are three blue connectors, one red connector, and one black connector. Each connector has a rectangular body with rounded corners, a central hole, and two gold-colored pins extending from the bottom. The connectors are arranged in a cluster, with the blue ones on the left and the red and black ones on the right.

SPECIFICATION

Style 2

Moulding	PBT UL94V-0
Contact	Brass
Finish	Insulated: Gold Un-insulated: See order code

Current Rating 10A at 20°C

Diagram showing the cross-section of a U-shaped channel. The width is labeled A , the height is labeled 9.00 , and the fillet radius is labeled $\text{Ø}1.00$.
