DESCRIPTION

The SC1151 voltage mode controller contains most of the circuitry necessary to implement a DC/DC converter for powering advanced microprocessors such as Klamath, both in single and multiple processor configurations.

The SC1151 features an integrated 5 bit D/A converter, pulse by pulse current limiting, integrated power good signaling, logic compatible shutdown and on-board over voltage protection (OVP).

The SC1151 operates at a fixed frequency of 200kHz, providing an optimum compromise between size, efficiency and cost in the intended application areas.

The integrated D/A converter provides programmability of output voltage from 2.0V to 3.5V in 100mV increments and 1.80V to 2.05V in 50mV increments with no external components.

The SC1151 provides an OVP output which can be used to trigger a crowbar circuit for true over voltage protection.

FEATURES

- 85% efficiency
- 5 bit DAC for output programmability
- On chip power good and OVP functions
- Designed for Intel Klamath VRM8.1 requirements

APPLICATIONS

- Klamath microprocessor supplies
- Klamath VRM modules
- 1.8V to 3.5V microprocessor supplies
- Programmable power supplies

NOTES:

(1) Low output currents, below the continuous conduction threshold will cause an increase in output voltage beyond the load regulation limit. For Application circuit 16935F see the regulation curve on sheet 5.

(2) All VID codes not specifically listed here are invalid and cause shutdown exactly as if the shutdown pin had been asserted. xxxxx refers to any valid VID code.

PIN DESCRIPTION

Pin #	Pin Name	Pin Function
1	GND	Small Signal Analog and Digital Ground
2	V _{CC}	Chip Supply Voltage
3	OVP	High Signal out if V _O > setpoint + 20%
4	PWRGOOD ⁽¹⁾	Open collector logic output, high if V _O within 10% of setpoint
5	CSm	Current Sense Input (negative)
6	CSp	Current Sense Input (positive)
7	PGND	Power Ground
8	DH	High Side Driver Output
9	BST	V _{CC} for High Side Driver
10	SHUTDOWN ⁽¹⁾	Logic low shuts down the converter
11	V _{OSENSE}	Top end of internal feedback chain
