

Date Last Revised: 12-18-08

RoHS Compliant

Push-In Fasteners provide an inexpensive, fast, convenient method to join plastic, circuit boards, or any other thin, light-weight material. They can also be used as push in glides or as bumpers. Special designed legs provide compression and expansion to lock fastener into pre-punched holes. These fasteners are vibration, abrasion and corrosion resistant, and feature large heads for easier assembly, and can be used over and over.

| MOUSER STOCK NO. | Description | H | A | B | C | D | L |
|------------------|-------------|------------------|------------------|------------------|------------------|------------------|------------------|
| 561-PIF37 | PIF 37 | 0.375 (+/- .015) | 0.636 (+/- .008) | 0.180 (+/- .005) | 0.220 (+/- .005) | 0.180 (+/- .005) | 0.875 (+/- .015) |

Dimensions: (in.)

| MATERIAL |
|---------------------|
| • Natural nylon 6/6 |
