

The image contains three isometric line drawings of electronic modules. The leftmost drawing shows a single module with a square top, two screws on the front face, a rectangular port, and two pins at the bottom. The middle drawing shows a 3U rack-mountable module, which is a stack of three such modules. The rightmost drawing shows a 5U rack-mountable module, which is a stack of five such modules. All drawings are in a simple line-art style.

- Rating: 1A/125VAC
- Insulation resistance: 100M Ω (min.) @ 500VDC
- Dielectric strength: 1000VAC for 1 minute
- Contact resistance: 20m Ω (max.)
- Reliability: 30,000 operations electrical

- Reliability: 50,000 operations mechanical
- Operating & storage temperature: -10°C to +55°C
