

848 LED Flashing Light Element for KombiSIGN 50

- Long life LED flashing light element
- Optimal light output
- Shock-proof and vibration-resistant
- Life duration up to 50,000 hrs
- Can be operated with PLC control system
- Low current consumption

TECHNICAL SPECIFICATIONS:

Life duration
up to 50,000 hrs

Dimensions (Diameter x Height):	52 mm x 65 mm	
Dome:	PC, transparent	
Life duration:	up to 50,000 hrs	
Current consumption:	red	45 mA
	yellow, green, clear, blue	40 mA
Starting current:	< 0.5 A at 24 V	

ORDER SPECIFICATIONS:

	24 V =
red	848 120 55
green	848 220 55
yellow	848 320 55
clear	848 420 55
blue	848 520 55

Available: 1st Quarter 2010.

ADDITIONAL INFORMATION:

A bright idea:

The energy-saving LED Flash from WERMA

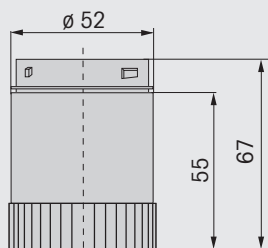

The new light-intensive LED Flash for the KombiSIGN 50 signal tower ensures low power consumption.

Even with regular use, the LED Flash accompanies the respective machine throughout its entire life cycle. The extremely bright, attention-grabbing flash is clearly visible even in direct sunlight.

Maximum awareness combined
with low current consumption

The new LED Flash, integrated
in the KombiSIGN 50 signal tower,
grabs your attention
