| Description :           | <ul style="list-style-type: none"> <li>The EX-41150 PCI Multi I/O adapter provides two high performance 16C550-type UART compatible RS-232 serial ports and one parallel SPP/EPP/ECP port. It is designed for PC, thin client or server to provide instant COM port expansion via the PCI- or PCI-X Bus. The card is fully PCI Plug-and-Play compatible and no IRQ and I/O address conflict problems.</li> </ul>                                                                                                    |
